

# Mastering Microsoft Entra Conditional Access

Security Access with Precision

# Attention

- ◆ MMS sessions are 60-75 minutes followed by LONG Q&A
- ◆ Please hold detailed questions until that Q&A starts
- ◆ Feel free to ask clarification questions
- ◆ Remind the speakers to use Zoom It when you can't see

# Speakers

**Jordan Benzing**

Director of Security & IT, Former MVP (5 years)

JordanTheITGuy

@JordanTheITGuy

**Carrie Cook**

Security Evangelist

in/CarrieCookSecurity

Can't see our slides? Can't hear? Need to repeat the question? Call us out!

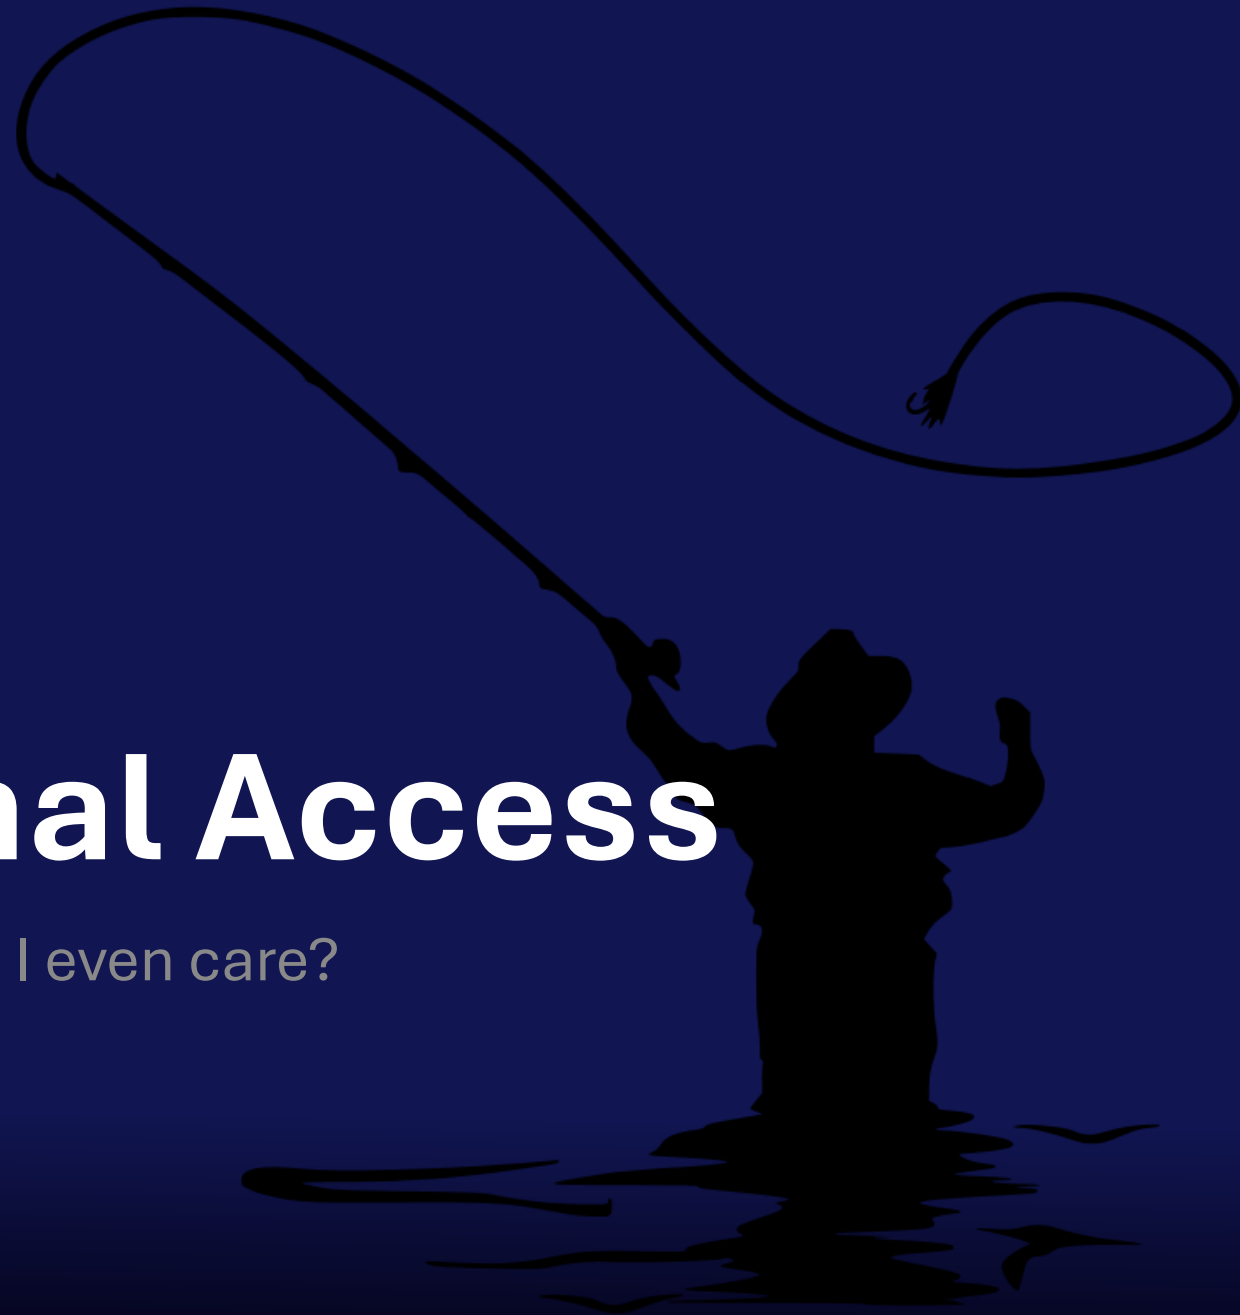

# What are you going to get?

- ◆ Core Principles of Conditional Access (why you care, or should)
- ◆ Document your processes (document or die)
- ◆ Right sizing for your business
- ◆ Licensing
- ◆ Just-in-time (PIM) - personas

# Principles of Extra Conditional Access

What is conditional access? Why should I even care?

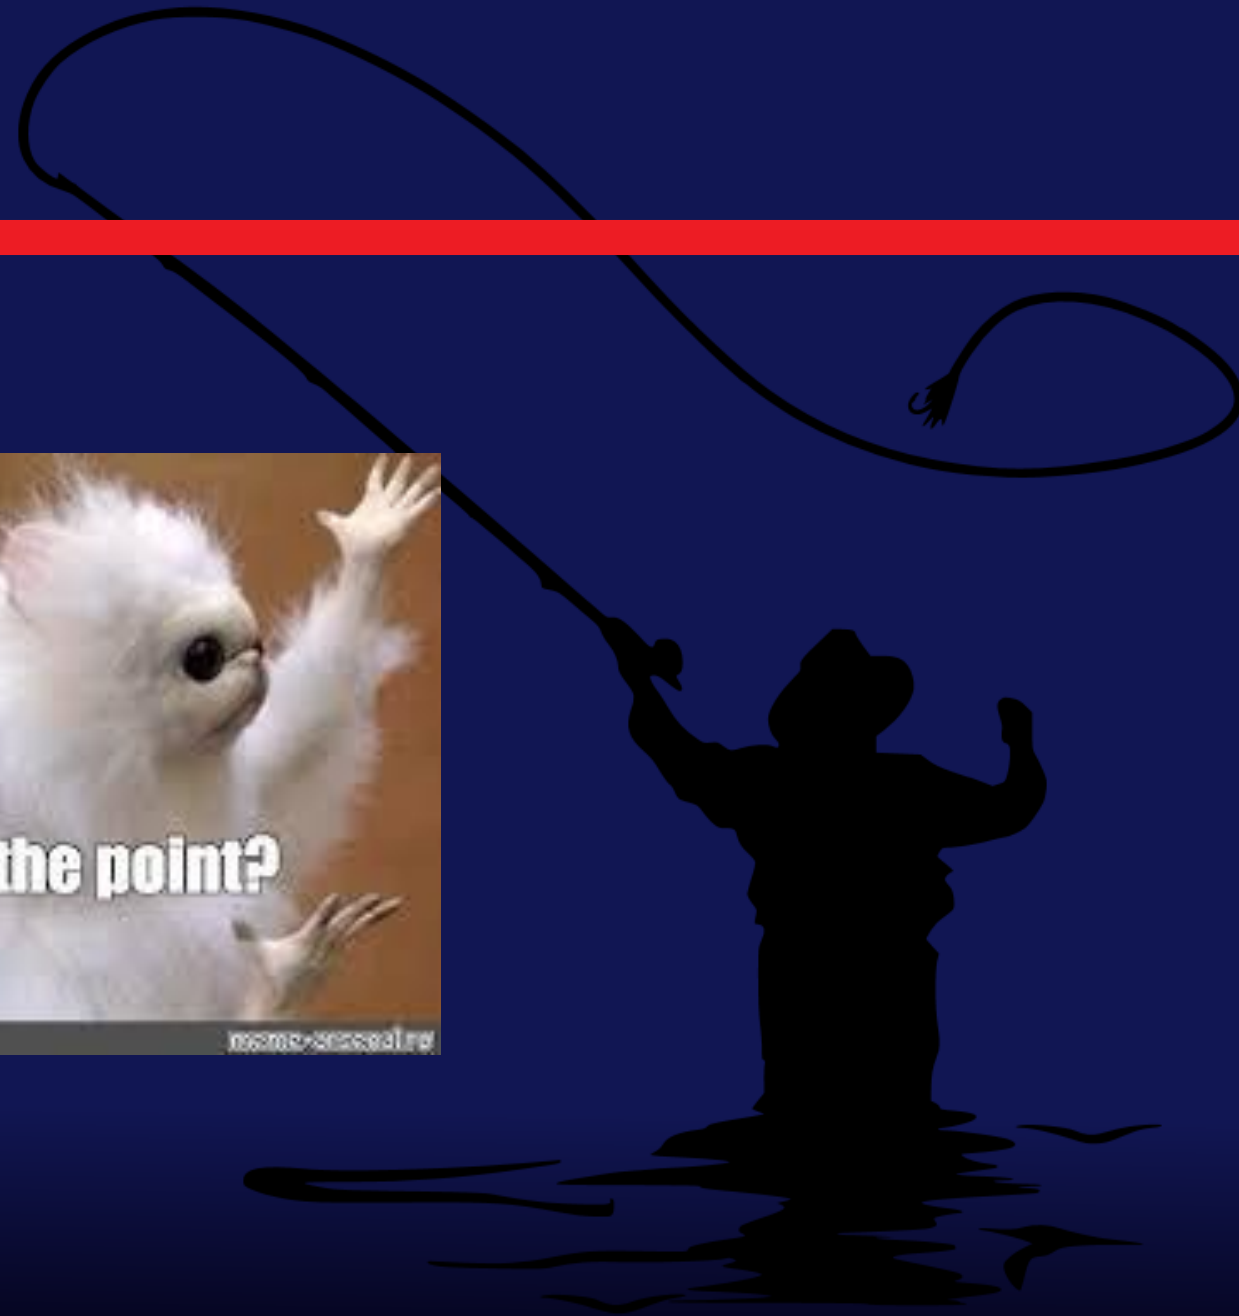

# Conditional Access and Zero-Trust

- ◆ Zero Trust Security
- ◆ Dynamic Conditional Access
- ◆ If-Then Policy Enforcement
- ◆ Adaptive Security Model

# What is the point?

# Protect Assets *without* Blocking Productivity

# Conditional Access Policy Structure

- ◆ Assignments
- ◆ Conditions
- ◆ Access Controls

# Identity & Context

- ◆ User or Group Membership
- ◆ App being accessed
- ◆ Device platform or state
- ◆ IP address & geographic location
- ◆ Sign-in Risk

# User & Sign-in Risk

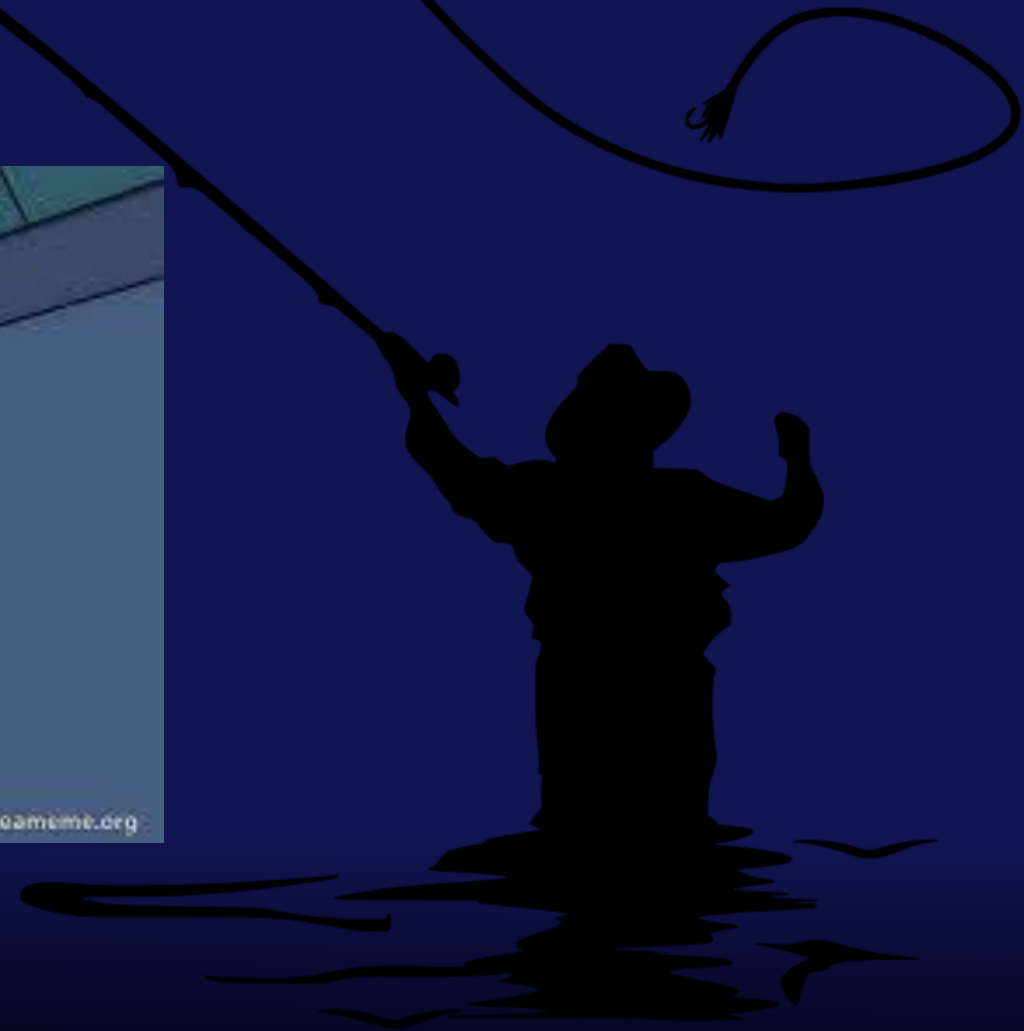

- ◆ Conditional Access integrates with **Microsoft Entra ID Protection**
- ◆ Risk signals identify suspicious user or sign-in behavior
- ◆ Policies can adapt enforcement based on **risk level**
- ◆ Enables stronger controls only when risk increases

# Device and Location Context

- ◆ Policies can target devices by platform or compliance state
- ◆ IP ranges, named locations, or countries/regions can influence access
- ◆ Enables differentiated access for trusted vs. untrusted environments

# Decisions, decisions, decisions

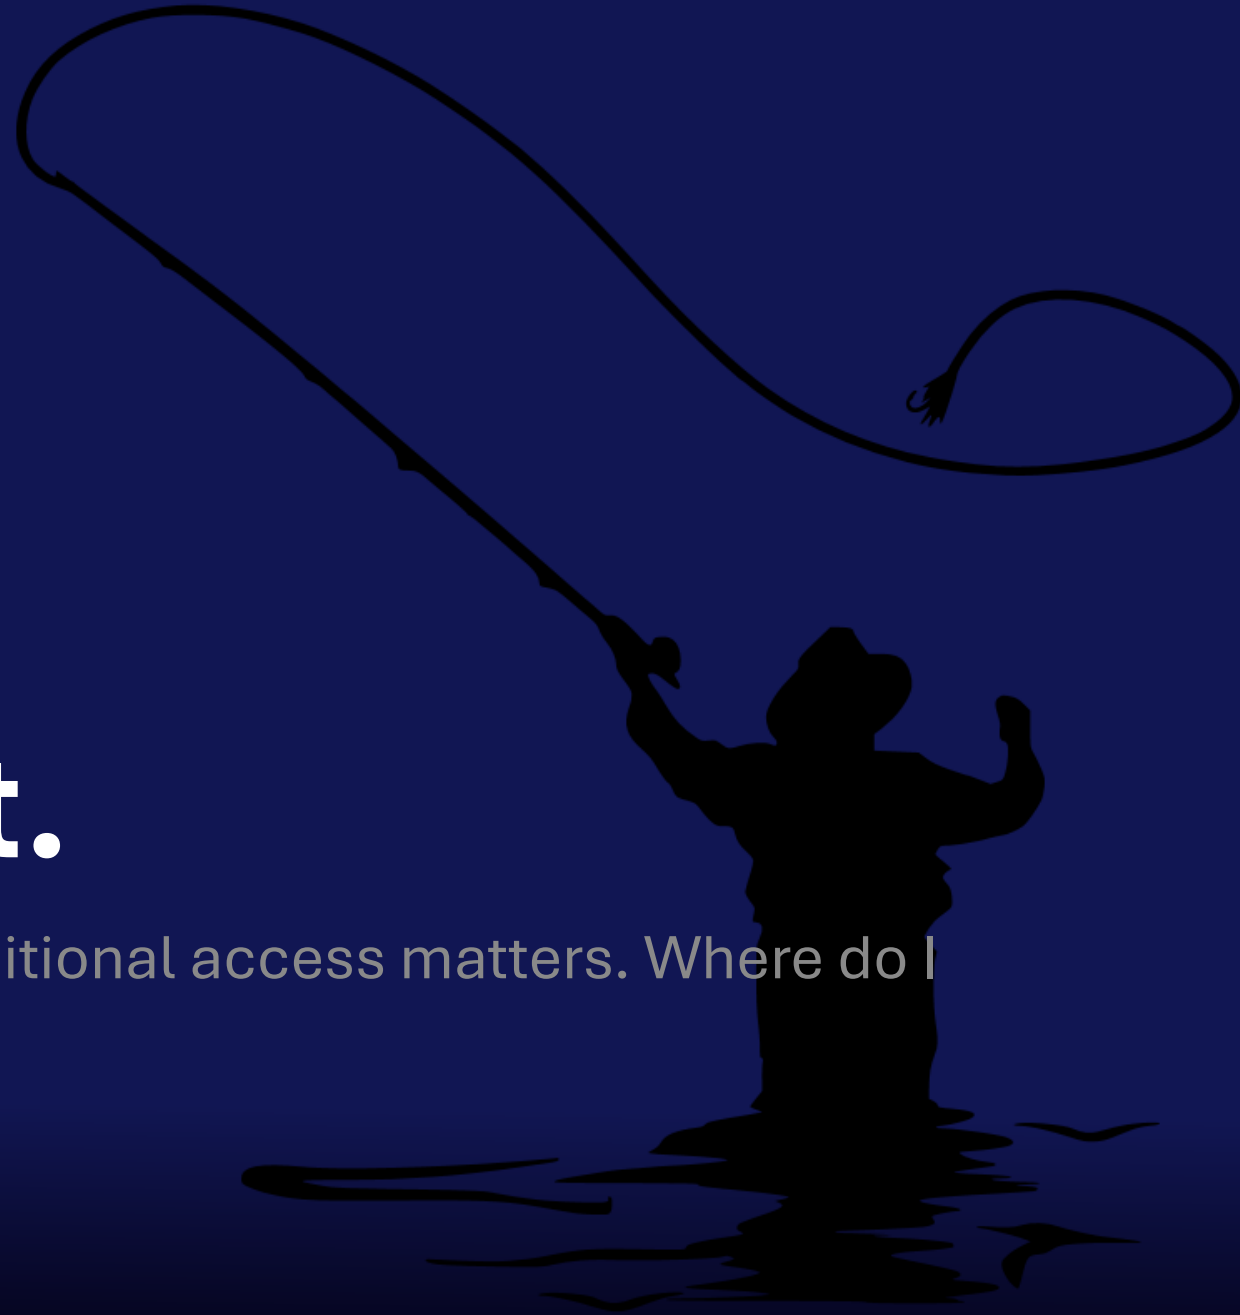

# When policies are applied correctly...

- ♦ CA policies ONLY apply when needed (ie risk or context req)
- ♦ Protect org assets

# First things first.

Okay, you've convinced me, I get it, conditional access matters. Where do I start?

# Documenting Personas

Signals used in access decision enforcement

# Right Size for Business

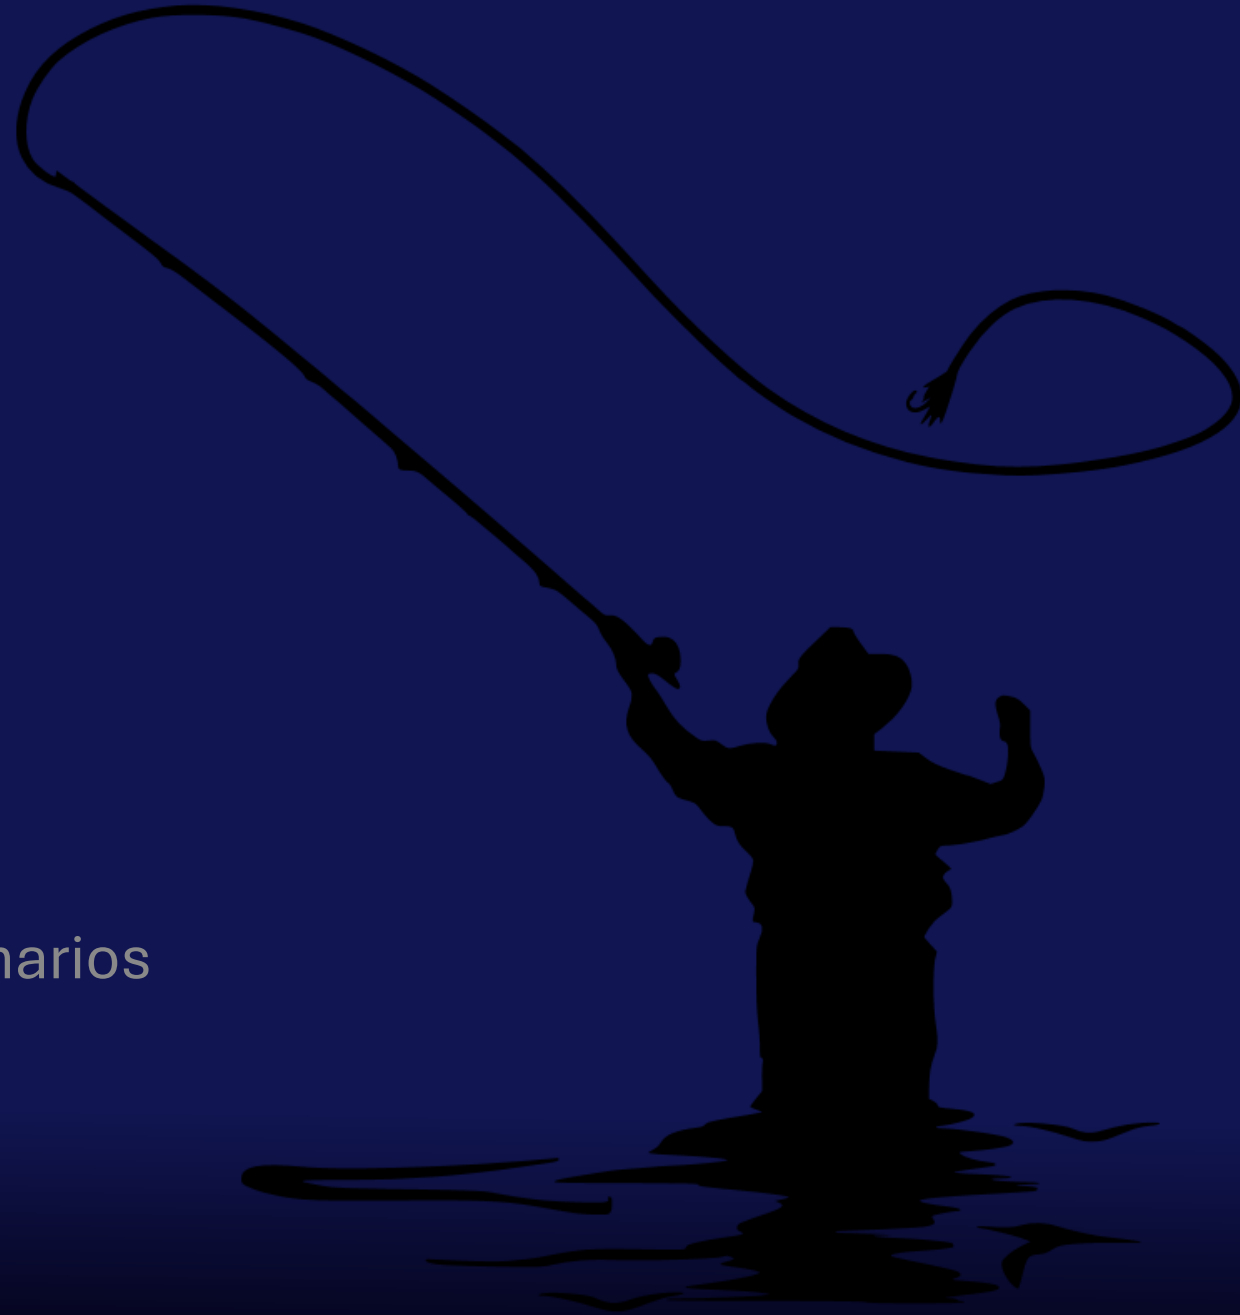

Practical Conditional Access Policy Scenarios

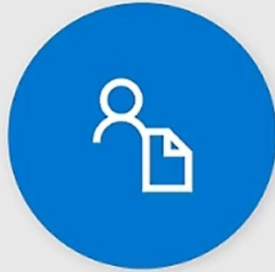

# Licensing

Practical Conditional Access Policy Scenarios

## Human entities

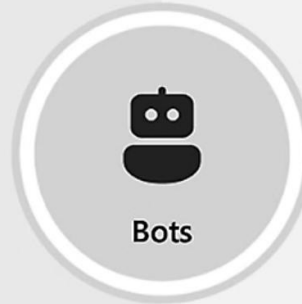

Employee

Partner

Customer

Bots

## Non-Human entities

Workloads  
e.g. apps, services  
containers etc.

Devices  
e.g. Mobile,  
IoT devices, etc.

### Flexible pricing options

Microsoft Entra Workload ID

**\$3.00**

workload identity/month, paid yearly  
(annual commitment)

[See pricing](#)

Use Microsoft Entra Workload ID to:

- ✓ Control workload identity access with adaptive policies.
- ✓ Reduce the risk exposure from lost or stolen identities or credentials.
- ✓ Get a comprehensive health-check view of workload identities.

Get more insight into the status of workload identities. Try Microsoft Entra Workload ID free for 90 days. Microsoft Entra Workload ID Premium is currently available for enterprise applications. [Learn more](#)

# Implementation

Actually go and do the thing!
